A Prelude to the Foundation of Political Economy: Oil, War, and Global Polity (The Economics of the Middle East) Cyrus Bina

This is a groundbreaking volume of theory and strategy on political economy and polity of the twenty-first century, which unites domains of economics, politics, international relations, and the environment in an organic whole. Distilled in concrete terms, it elucidates the enigma of oil in view of the centrality of global social relations and with respect to two major exigencies of our time, namely, world peace, and defense of our ecosystem. *A Prelude to the Foundation of Political Economy* also highlights the need for detachment of US foreign policy from dependence on oil, to reveal rather vividly the illusion of America's power and leadership. This book is a wakeup call to the altered reality in which we live.
