Design Primer for Hot Climates Allan Konya, Maritz Vandenberg

This highly practical book has been written to encourage design solutions that are in harmony with local climates & conditions: a matter of economic as well as aesthetic importance. The initial chapters explain the fundamentals of climate & comfort. Subsequent sections set out environmental design techniques: methods of dealing with hazards such as earthquakes, lightning and termites; and guidance on the use of locally available materials & technology. The emphasis throughout is on illustrated and tabulated practical advice, with many drawn examples of building form & construction, and lists of suitable plant species.
