An Introduction To Health: Policy, Planning and Financing Brian Abel-Smith

This book concerns itself with the key question: how to improve health in a cost effective and politically acceptable way. What makes people healthy? Why are the poor less healthy than the rich? Why do some countries have a better health record than others? **An Introduction to Health** is divided into four parts comprising the determinants of health, health service planning, health service financing, and controlling costs and securing user-friendly services.
