From Alchemy to Chemistry in Picture and Story Arthur Greenberg

Praise for *From Alchemy to Chemistry in Picture and Story*

"The timeline from alchemy to chemistry contains some of the most mystifying ideas and images that humans have ever devised. Arthur Greenberg shows us this wonderful world in a unique and highly readable book."

—Dr. John Emsley, author of *The Elements of Murder: A History of Poison*

"Art Greenberg takes us, through text and lovingly selected images, on a 'magical mystery tour' of the chemical universe. No matter what page you open, there is a chemical story worth telling."

—Dr. Roald Hoffmann, Nobel Laureate and coauthor of *Chemistry Imagined*

"Chemistry has perhaps the most intricate, most fascinating, and certainly most romantic history of all the sciences. Arthur Greenberg's essays—delightful, learned, quirky, highly personal, and richly illustrated with contemporary drawings (many of great rarity and beauty)—provide a kaleidoscope of intellectual landscapes, bringing the experiments, the ideas, and the human figures of chemistry's past intensely alive."

—Dr. Oliver Sacks, author of *Awakenings*

From Alchemy to Chemistry in Picture and Story takes you on an illustrated tour of chemistry's fascinating history, from its early focus on the spiritual relationship between man and nature to some of today's most cutting-edge applications. Drawing from rare publications and artwork that span over five centuries, the book contains nearly 200 essays and over 350 illustrations—including 24 in full color—that tell the engaging story of the development of this fundamental science and its connection with human history.

Join Arthur Greenberg as he combines the "best of the best" from his previous works (as well as several new essays) to paint a colorful picture of chemistry's remarkable origins!
