Models of Teaching (6th Edition) Bruce R. Joyce, Marsha Weil, Emily Calhoun

The sixth edition of Models of Teaching is written to be the core of the theory/practice aspect of the K-12 teacher education program. It covers the rationale and research on the major models of teaching and applies the models by using scenarios and examples of instructional materials. Because it deals with the major psychological and philosophical approaches to teaching and schooling, Models of Teaching provides a direct link between educational foundations and student teaching. Therefore, the book can provide substantial support to programs taking a "reflective teaching" or constructivist approach.
