Differential Ion Mobility Spectrometry: Nonlinear Ion Transport and Fundamentals of FAIMS

Alexandre A. Shvartsburg

Over the last decade, scientific and engineering interests have been shifting from conventional ion mobility spectrometry (IMS) to field asymmetric waveform ion mobility spectrometry (FAIMS). **Differential Ion Mobility Spectrometry: Nonlinear Ion Transport and Fundamentals of FAIMS** explores this new analytical technology that separates and characterizes ions by the difference between their mobility in gases at high and low electric fields. It also covers the novel topics of higher-order differential IMS and IMS with alignment of dipole direction.

The book relates the fundamentals of FAIMS and other nonlinear IMS methods to the physics of gas-phase ion transport. It begins with the basics of ion diffusion and mobility in gases, covering the main attributes of conventional IMS that are relevant to all IMS approaches. Building on this foundation, the author reviews diverse high-field transport phenomena that underlie differential IMS. He discusses the conceptual implementation and first-principles optimization of FAIMS as a filtering technique, emphasizing the dependence of FAIMS performance metrics on instrumental parameters and properties of ion species. He also explores ion reactions in FAIMS caused by field heating and the effects of inhomogeneous electric field in curved FAIMS gaps.

Written by an accomplished scientist in the field, this state-of-the-art book supplies the foundation to understand the new technology of nonlinear IMS methods.

From reader reviews:

Ira Gonzalez:

Hey guys, do you would like to finds a new book to study? May be the book with the concept Differential Ion Mobility Spectrometry: Nonlinear Ion Transport and Fundamentals of FAIMS suitable to you? The book was written by famous writer in this era. Often the book untitled Differential Ion Mobility Spectrometry: Nonlinear Ion Transport and Fundamentals of FAIMS is one of several books which everyone read now. This particular book was inspired many men and women in the world. When you read this e-book you will enter the new age that you ever know just before. The author explained their plan in the simple way, thus all of people can easily to comprehend the core of this e-book. This book will give you a wide range of information about this world now. To help you see the represented of the world with this book.

Jennifer McNab:

People live in this new moment of lifestyle always try to and must have the spare time or they will get large amount of stress from both day to day life and work. So , once we ask do people have free time, we will say absolutely yes. People is human not really a huge robot. Then we consult again, what kind of activity are there when the spare time coming to anyone of course your answer may unlimited right. Then ever try this one, reading ebooks. It can be your alternative throughout spending your spare time, the actual book you have read is Differential Ion Mobility Spectrometry: Nonlinear Ion Transport and Fundamentals of FAIMS.

Joy Hutchinson:

Do you like reading a publication? Confuse to looking for your selected book? Or your book was rare? Why so many problem for the book? But virtually any people feel that they enjoy for reading. Some people likes reading through, not only science book but additionally novel and Differential Ion Mobility Spectrometry: Nonlinear Ion Transport and Fundamentals of FAIMS or even others sources were given knowledge for you. After you know how the truly great a book, you feel want to read more and more. Science publication was created for teacher or students especially. Those guides are helping them to put their knowledge. In various other case, beside science book, any other book likes Differential Ion Mobility Spectrometry: Nonlinear Ion Transport and Fundamentals of FAIMS to make your spare time considerably more colorful. Many types of book like here.

Christopher Hendrick:

Reading a reserve make you to get more knowledge from the jawhorse. You can take knowledge and information from the book. Book is created or printed or descriptive from each source in which filled update of news. With this modern era like at this point, many ways to get information are available for a person. From media social including newspaper, magazines, science reserve, encyclopedia, reference book, new and comic. You can add your knowledge by that book. Ready to spend your spare time to open your book? Or just in search of the Differential Ion Mobility Spectrometry: Nonlinear Ion Transport and Fundamentals of

FAIMS when you required it?
