Living in London, and with the opening of the new improved city version of Clava Books mere days away, things appear to be settling down. Other than the terrible nightmares about dragons, that is. Or the fact that she's being constantly tailed by a string of mages, shifters and faeries, all of whom are constantly demanding her attention. And that's without even bringing the temptation of Corrigan, Lord Alpha of the Brethren, into the equation.

Then, when a local dryad asks her for some help, things really start to fire up. There are some long hot summer days ahead...
