As of June 20, 2014, contact hours for nurses are no longer available with this product.

Help your new graduate nurses gain the critical thinking skills necessary to practice in a complex pediatric environment.

The pediatric unit is a complex environment, requiring nurses to display unique skills and abilities yet there is very little literature available for pediatric professionals. With ***Critical Thinking in the Pediatric Unit: Skills to Assess, Analyze, and Act***, you will raise the standard of professional nursing practice and teach clinical care providers how to function at a higher level by developing nurses' critical thinking abilities.

Build confidence and competence through critical thinking

Critical Thinking in the Pediatric Unit is a new, easy-to-read resource that explains the principles of critical thinking and how to encourage nurses to use critical thinking methods.

This essential book covers how to lead classroom sessions training new graduate nurses and experienced nurses in developing critical thinking skills, including successful classroom processes and learning strategies. It also includes workbooks and handouts to supplement classroom learning.

Critical thinking is essential to nurses' success

The ability to think critically is crucial to patient care and reducing medical errors. This book provides nurse managers and educators with accessible and easy ways to teach these valuable skills to their staff.

Benefits for both novice and seasoned professional nurses

Learn how to develop a culture of critical thinking, from coaching new grads through bad patient outcomes to encouraging experienced nurses by setting expectations.

Critical Thinking in the Pediatric Unit provides strategies for managers and nurse educators to use in developing critical thinking skills during orientation and beyond and includes tools and resources for ongoing development.

You also get a CD-ROM containing all the book's valuable and completely customizable resources such as pediatric unit-specific

- assessment tools
- case studies
- worksheets
- sample questions

***Critical Thinking in the Pediatric Unit: Skills to Assess, Analyze, and Act* is a must-have for:**

- chief nursing officers
- directors of nursing
- nurse managers
- nurse educators
