Mont-Saint-Michel and Chartres Henry Adams

Mont Saint Michel and Chartres is a record not of a literal journey but of a meditative journey across time and space into the medieval imagination. Using the architecture, sculpture, and stained glass of the two locales as a starting point, Adams breathes life into what others might see merely as monuments of a past civilization. With daring and inventive conceits, Adams looks at the ordinary people, places, and events in the context of the social conventions and systems of thought and belief of the thirteenth century turning the study of history into a kind of theater.
