Jean Jacques Rousseau: Political Writings Frederick Watkins

Frederick Watkins' 1953 edition of Rousseau's *Political Writings* has long been noted for being fully accurate while representing much of Rousseau's eloquence and elegance. It contains what is widely regarded as the finest English translation of *The Social Contract*, Rousseau's greatest political treatise. In addition, this edition offers the best available translation of the late and important *Government of Poland* and the only published English translation of the fragment *Constitutional Project for Corsica*, which, says Watkins, provides the clearest possible demonstration of the practical implications of Rousseau's political thought.
