Needs Assessment in Public Health: A Practical Guide for Students and Professionals Donna J. Petersen, Greg R. Alexander

This volume is for students and practitioners interested in improving their understanding and skills in the area of needs assessment. The text follows the typical sequence of an actual needs assessment process. Case studies are used to illustrate conceptualization of the task through the application of needs-based data to effective public health solutions. Examples are drawn from myriad public health efforts, recognizing that not all public health sector agencies bear direct responsibility for all activities that could be considered part of public health.
