## **Total Laparoscopic Hysterectomy Versus Abdominal Hysterectomy in the Treatment of Patients With Early Stage Endometrial Cancer: A Randomized Multi-Center Study** Applied Research Press

Traditionally standard treatment for patients with early stage endometrial cancer (EC) is total abdominal hysterectomy and bilateral salpingo oophorectomy (TAH+BSO) with or without lymph node dissection through a vertical midline incision. While TAH is an accepted effective treatment, it is highly invasive, visibly scarring and associated with morbidity. An alternative treatment is the same operation by laparoscopy. Though in several studies total laparoscopic hysterectomy (TLH+ BSO) seems a safe and feasible alternative approach in early stage endometrial cancer patients, there are no randomized data available yet. Furthermore, a randomized controlled trial with surgeons trained in laparoscopy is warranted in order to implement this technique in a safe manner. The aim of this study is to compare the treatment related morbidity, cost-effectiveness and quality of life in early stage endometrial cancer patients treated by laparoscopy versus the standard open approach.

### **From reader reviews:**

#### **Patrick Walker:**

This Total Laparoscopic Hysterectomy Versus Abdominal Hysterectomy in the Treatment of Patients With Early Stage Endometrial Cancer: A Randomized Multi-Center Study book is simply not ordinary book, you have it then the world is in your hands. The benefit you get by reading this book will be information inside this reserve incredible fresh, you will get data which is getting deeper you actually read a lot of information you will get. This specific Total Laparoscopic Hysterectomy Versus Abdominal Hysterectomy in the Treatment of Patients With Early Stage Endometrial Cancer: A Randomized Multi-Center Study without we realize teach the one who reading through it become critical in imagining and analyzing. Don't always be worry Total Laparoscopic Hysterectomy Versus Abdominal Hysterectomy in the Treatment of Patients With Early Stage Endometrial Cancer: A Randomized Multi-Center Study can bring once you are and not make your case space or bookshelves' turn into full because you can have it inside your lovely laptop even telephone. This Total Laparoscopic Hysterectomy Versus Abdominal Hysterectomy in the Treatment of Patients With Early Stage Endometrial Cancer: A Randomized Multi-Center Study having good arrangement in word along with layout, so you will not experience uninterested in reading.

#### **Barbara Duty:**

As people who live in often the modest era should be update about what going on or info even knowledge to make all of them keep up with the era that is always change and move ahead. Some of you maybe may update themselves by examining books. It is a good choice for yourself but the problems coming to anyone is you don't know what one you should start with. This Total Laparoscopic Hysterectomy Versus Abdominal Hysterectomy in the Treatment of Patients With Early Stage Endometrial Cancer: A Randomized Multi-Center Study is our recommendation so you keep up with the world. Why, since this book serves what you want and wish in this era.

#### **Wanda Davis:**

Your reading 6th sense will not betray you actually, why because this Total Laparoscopic Hysterectomy Versus Abdominal Hysterectomy in the Treatment of Patients With Early Stage Endometrial Cancer: A Randomized Multi-Center Study e-book written by well-known writer we are excited for well how to make book that can be understand by anyone who else read the book. Written inside good manner for you, leaking every ideas and creating skill only for eliminate your current hunger then you still hesitation Total Laparoscopic Hysterectomy Versus Abdominal Hysterectomy in the Treatment of Patients With Early Stage Endometrial Cancer: A Randomized Multi-Center Study as good book but not only by the cover but also through the content. This is one reserve that can break don't evaluate book by its include, so do you still needing a different sixth sense to pick this!? Oh come on your studying sixth sense already told you so why you have to listening to one more sixth sense.

**Zachary Connors:**
