The Art of Seduction by Robert Greene | Summary & Study Guide BookRags

The Art of Seduction by Robert Green is about this "timeless classical" human behavior. Modern descriptions might refer to advertising firms, "players" and "playing the field." However, one of the truths revealed by the book is that, often, the most successful marriage is a result of the most effective seduction. The author explores and explains this social behavior throughout the book in many sections. Part of the work is devoted to helping readers to understand what may be happening in their own lives. Yet this is only the beginning of what the book holds in store for readers.

This study guide includes the following sections: Plot Summary, Chapter Summaries & Analysis, Characters, Objects/Places, Themes, Style, Quotes, and Topics for Discussion.
