Facility Location: A Survey of Applications and Methods (Springer Series in Operations Research and Financial Engineering)

Facility location applications are concerned with the location of one or more facilities in a way that optimizes a certain objective such as minimizing transportation cost, providing equitable service to customers, capturing the largest market share, etc. Facility location problems give rise to challenging geometrical and combinatorial problems. The research on facility location problems spans many research fields such as operations research/management science, industrial engineering, geography, economics, computer science, mathematics, marketing, electrical engineering, urban planning, and related fields. Applications to facility location models abound. Location of warehouses, plants, hospitals, retail outlets are classical examples. Applications are also found in the location of electronic components, warning sirens, sprinklers, radar beams, exploratory oil wells. These are less obvious "facilities". One should consider applying a location model to any scenario that involves finding a best location (or locations) for any object(s). This book Facility Location: A Survey of Applications and Methods provides a state of the art review along with references to important contemporary topics in locational analysis. The book includes twenty chapters divided into four parts, each dealing with a different aspect of location modeling and implementation. The book concludes with over 1,200 references. The first part Methodology and Analysis consists of a survey of methodological and technical aspects of location analysis. Issues such as estimating distances, the error introduced by assuming discrete demand rather than continuous one, global optimization techniques, inference of weights, conjugate duality, and using Voronoi diagrams are reviewed.

From reader reviews:

Nathaniel Gonzalez:

In this 21st centuries, people become competitive in each way. By being competitive right now, people have do something to make these individuals survives, being in the middle of the actual crowded place and notice by surrounding. One thing that sometimes many people have underestimated this for a while is reading. Sure, by reading a book your ability to survive increase then having chance to remain than other is high. For yourself who want to start reading the book, we give you this specific Facility Location: A Survey of Applications and Methods (Springer Series in Operations Research and Financial Engineering) book as beginner and daily reading e-book. Why, because this book is more than just a book.

Sheila Powell:

Reading a guide tends to be new life style within this era globalization. With looking at you can get a lot of information that will give you benefit in your life. Having book everyone in this world could share their idea. Textbooks can also inspire a lot of people. A great deal of author can inspire their very own reader with their story as well as their experience. Not only situation that share in the textbooks. But also they write about advantage about something that you need case in point. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors in this world always try to improve their proficiency in writing, they also doing some research before they write to their book. One of them is this Facility Location: A Survey of Applications and Methods (Springer Series in Operations Research and Financial Engineering).

Florence Nguyen:

Facility Location: A Survey of Applications and Methods (Springer Series in Operations Research and Financial Engineering) can be one of your beginning books that are good idea. Most of us recommend that straight away because this e-book has good vocabulary that will increase your knowledge in words, easy to understand, bit entertaining but delivering the information. The article author giving his/her effort to put every word into pleasure arrangement in writing Facility Location: A Survey of Applications and Methods (Springer Series in Operations Research and Financial Engineering) nevertheless doesn't forget the main point, giving the reader the hottest and also based confirm resource data that maybe you can be one of it. This great information can certainly drawn you into brand new stage of crucial thinking.

Sammy Cheney:

The book untitled Facility Location: A Survey of Applications and Methods (Springer Series in Operations Research and Financial Engineering) contain a lot of information on the item. The writer explains the woman idea with easy means. The language is very clear and understandable all the people, so do not really worry, you can easy to read that. The book was written by famous author. The author brings you in the new time of literary works. It is possible to read this book because you can keep reading your smart phone, or model, so

you can read the book inside anywhere and anytime. If you want to buy the e-book, you can start their official web-site in addition to order it. Have a nice study.
